

IMPORTANT CORONAVIRUS COVID-19 NOTICE

TO ALL VISITORS TO PLEASANT VALLEY MANOR

The P.A. Department of Health, through their daily updates has posted an increase in coronavirus cases in Pennsylvania during the past week. This includes one presumptive case identified in Monroe County.

The potential for a “community spread” of the virus is very real and may no longer be passed on only by someone who is known to have the virus.

The greatest potential to transmit coronavirus, may come from individuals that do not know they have been exposed to it, and unknowingly infect our residents, and staff when visiting.

**BECAUSE OF THIS VERY REAL POTENTIAL,
PVM IS REQUIRING THAT NO RESIDENT VISITS
TAKE PLACE BEGINNING THURSDAY,
MARCH 12, 2020 UNTIL FURTHER NOTICE.**

The only exceptions to this requirement would be if your loved one at PVM has a significant change in condition or a special requirement that necessitates your visit.

We are also asking that you not sign your loved one out of the building for social outings until further notice.

Please feel free to contact the Social Service staff if you would like to discuss a specific need regarding visitations.

I truly thank you for your understanding and cooperation on this most important action.

Drew H. Lutton, NHA MSM
